

## **(01/10/2010) CASPA Is Pleased To Host A High Level Delegation From New Energy Chamber of Commerce in China**

Dear CASPA Members and Friends,

CASPA is pleased to host a high level delegation from [New Energy Chamber of Commerce](#), under All China Federation of Chamber of Industrial and Commerce ([全国工商联](#)) whose top post is at the vice premium level in China. Members of the chamber are major privately owned companies in China, and they are interested to share their resources with CASPA and CASPA's affiliated high tech companies in Silicon Valley. The delegation is led by Executive President Dr. Zhang Zhengyu (张征宇) and includes its member company [HTW China](#) led by CEO Ms. Ming Li (李明). Below is the tentative arrangement:

1. A small group round table discussion on Smart Grid

Time, 1:30-3:30 pm, Jan 10, 2010, Venue: TBD

Goal: To facilitate the collaborations between domain experts who understand the issues on the Smart Grid in both China and the US market and the semiconductor professionals who can provide viable solutions to these issues.

Co-hosted by [CASPA](#) and UCGEC ([US China Green Energy Council](#))

Panelists:

Three leading experts in smart grid from UCGEC:

- 1) Dr. Steve Lee, Senior Technical Executive, Electric Power Research Institute
  - 2) Dr. Chuck Wells, CTO, OSIsoft, Inc
  - 3) Dr. Ed Cazalet, Vice President, MegaWatt Storage Farms
- All of them have many year experiences in power grid industry.

Dr. Zhang from New Energy Chamber of Commerce

Seating are limited only to those who have something to offer, and you need to RSVP to [seanxian@gmail.com](mailto:seanxian@gmail.com), or [xianfeng.ding@gmail.com](mailto:xianfeng.ding@gmail.com), to let us know why you are interested, before Jan 6, to sign up your seats, and we will inform you the location.

2. Network with visitors, 3:30-4:30, Jan 10, 2010, Venue: TBD, same as above

Who should attend: companies or teams who are seeking partners to develop China market on clean tech related projects, or selling energy efficient handheld products in China.

### 3. Private meeting with visitors from HTW China

A. Visiting companies, Jan 11

B. Meeting with teams in their hotel, Jan 12

About HTW China: [HTW China](#) is an important player of smart phone on the security market in China. The company recently started a thin film solar project, and developed solar based smart phone products. (See attached two files for more details about HTW China and Dr. Zhang). They come to Silicon Valley to find potential partners, to meet companies or organizations with advanced technologies, with two specific targets:

- Technologies that can lead to energy efficient handheld products;
- Energy related investment opportunities such as solar, Li-ion battery and smart grid (新能源、新型太阳能电池、磷酸铁锂电池、智能电网), etc.

Other members of the delegation from HTW China: Li Jian(李剑), Vice President, Li Zhongchao (李忠超), Business Developer.

About CASPA: CASPA is a non-profit volunteer-run organization. We facilitate the collaborations among members and corporate sponsors, and we are pleased if you are interested in joining us.

Action: RSVP to [seanxyan@gmail.com](mailto:seanxyan@gmail.com), or [xianfeng.ding@gmail.com](mailto:xianfeng.ding@gmail.com), before Jan 6, to let us know whether you are interested in the round table discussion on the smart grid, to network with them, to host the delegation's visit in your company (on Jan 11), or to meet the delegation in private in their hotel (Jan 12). Please propose a few time slots if possible for private meetings.
