

PANTRONIX CORPORATION is a leading fabless electronic company for design, manufacture and market - globally specializing in the defense, medical, aerospace, telecommunication and energy industries.

We've been in Silicon Valley more than 38 years and our different products and services range from component level to MCM, board level, sub systems and complete systems.

We are anticipating some exciting expansion opportunities in the next few years and therefore have the following opportunities available for qualified persons to participate and join the team, full time or part time, to contribute and share the success together:

- IC Chip designer
- Project Manager  
(coordinate and supervise from chip design to wafer fab and testing)
- IC Packaging Engineer
- Testing Engineer (Hardware and Testing Programs)
- Equipment Engineer (I/C Packaging Equipment)
- Marketing Engineer
- Marketing/Sales
- Customer Service

PANTRONIX CORPORATION
